Twenty-four authoritative reports and documents in this unique ebook provide a comprehensive review from renowned experts and government sources of all aspects of the current Iraq crisis involving the al-Qaeda related terrorist organization Islamic State of Iraq and Syria (ISIS), variously known as Islamic State in Iraq and the Levant (ISIL), Islamic State of Iraq and al-Sham (ISIS), and AQI. The group - headed by terrorist Abu Bakr al-Baghdadi - is seizing substantial territory in Iraq as it attempts to fulfill its ambition of forming the first terrorist Islamic state. Terrorism experts are concerned that the group will pose a serious threat to American interests and security. There is also substantial information and commentary about the crisis in Syria, Iran's influence on Iraq, Turkish influence in the Levant, intelligence assessments, histories of the Iraq conflict and politics, and much more about this critical issue. Commenting on the Mosul assault, the State Department noted: ISIL continues to gain strength from the situation in Syria, from which it transfers recruits, sophisticated munitions, and resources to the fight in Iraq. It should be clear that ISIL is not only a threat to the stability of Iraq, but a threat to the entire region. This growing threat exemplifies the need for Iraqis from all communities to work together to confront this common enemy and isolate these militant groups from the broader population. The United States stands with the Iraqi people and the people of Ninewa and Anbar now confronting this urgent threat. We will continue to work closely with Iraqi political and security leaders on a holistic approach to diminish ISILs capacity and ability to operate within Iraqs borders. Our assistance enables Iraq to combat ISIL on the front lines, where hundreds of Iraqi security force personnel have been killed and injured in that fight this year.

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
