

Reconstructing Post-Saddam Iraq (ThirdWorlds)

Previously published as a special issue of Third World Quarterly, this volume seeks to analyze to what extent the controversial US policy of democratizing the Middle East with pre-emptive invasions was justified or effective. Post 9/11 the US developed a policy of War on Terror, taking the decision to democratize the Middle East with pre-emptive invasions in both Afghanistan and Iraq. As Barakat puts it Iraq was deliberately de-constructed in order to be reconstructed in a new model. Looking not only at the evidence of democracy post-invasion, the author also considers the global, regional and internal politics leading up to the decision to invade. The effect is an insightful and vital volume that fulfils an urgent need and seeks to answer the questions most troubling the international community since the invasion of Iraq. Were the invasion of Iraq and Afghanistan an exploitation of military supremacy to secure a favourable balance of power for the US? Is it possible to build a stable democracy after a pre-emptive invasion? What is the current outlook for a stable democracy in Iraq? Reconstructing Post-Saddam Iraq is vital reading for all those interested in international politics and the future in Iraq.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
