

A sailing directory for the Ethiopic or Southern Atlantic Ocean; including a description of the coasts of South America and Africa

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1883 Excerpt: ...you to pass all the isles in the bay; and, having arrived here, you may tack according to circumstances. Should you experience a calm between the land and sea breezes, before you get without the islands, it will be proper to anchor, choosing a favourable position, so as to get under weigh again with the first breeze that ensues. The CITY of RIO de JANEIRO, or SAO SEBASTIAO, contains all the buildings and attributes of a large and handsome city. It is built on a low and marshy plain, surrounded by the sea on two sides, and on the third hemmed in by two small parallel ridges running E.N.E. and W.N.W., which shut out the sea-breeze. Therefore its position, and the difficulty of drainage, formerly caused much unhealthiness and many disagreeables at variance with its pretensions as a capital, but this serious drawback has been obviated by an English company which has undertaken the drainage, and Rio de Janeiro will compare favourably with many cities of equal size in Europe. Since 1835 it has formed the metropolitan district (corte mumeipioj of Brasil, and is now the capital of the province, which was formerly Nitheroy, on the opposite side of the bay to the eastward. In 1819 it contained a population of 120,000, and in 1840 only 140,000. It now contains about 275,000, the population of the province in 1875 amounting to 782,724. It is a busy place near the quays and in the principal streets, which are straight and well paved. It is considered one of the best lighted cities in the world, being brilliantly lighted with gas up to the foot of the surrounding hills, which causes that reflection in the sky before mentioned, sometimes visible 90 to 120 miles off at sea. Among some later

improvements may be noticed the extension of the custom-house, and the formation o...

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition

we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
