

Ashes Ashes the Twins Fall Down: Twin Towers, 9/11

9/11: The Day That Defined a Generation
Where were you on 9/11? That question has become part of the fabric of our lives as Americans. On that bright, sunny day, none of us had any idea what was in store and how it would change our lives. Depending on what part of the country you lived in, you may not have known anything was going on until several hours after the first plane struck. You may not have heard the news until you got to work, turned on your car radio, or received a call from a loved one asking if you had seen or heard the news. *Ashes Ashes the Twins Fall Down* is a look at the events of 9/11 from personal and informational perspectives. Author, Pauline Hawkins, who lived in Texas at the time of the attacks, shares her experience of 9/11, and its repercussions for her family, her job, and how she viewed the world. Pauline's story of coping with the news, reframing how she thought about America and the world, and making a conscious decision to become better-informed will resonate with anyone who lived through 9/11. In addition to her personal testimony, Pauline provides a thought-provoking context for the events of 9/11, including political background, social commentary, and reflections on the contributions of everyday heroes. You'll come away from this book both enlightened and comforted by Pauline's honesty and common sense, as well as her heartfelt appreciation of those who sacrificed for our country, and those who continue to work toward healing and rebuilding.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
