

Babylonian Life and History

The following pages have been written with the view of offering to the Bible student, in a small compass, a little of the history of Babylon, her thought, religion, and manners, and consequently the means whereby he may understand better some of the allusions of the prophets and Bible historians. -from the Introduction Almost 6,000 years after the beginning of their great society, and 2,600 years after its collapse, the heritage handed us by the ancient Babylonians still runs like a shining thread through our global civilization today, a profound cultural gift recognized in the 19th-century as their cuneiform language was first translated. Here, one of the most prominent antiquarians of the Victorian era introduces us to both the secular reality and the spiritual worldview of these sophisticated early people, from their daily life - including aspects of their food, clothing, and furniture - to their religious traditions, their devotion to astrology, and their practice of magic. Drawing on primary and secondary sources uncovered by the archaeology of the era, this is an important volume for students of mythology, religion, history, and historical research. SIR E.A. BUDGE (1857-1934) was curator of Egyptian and Assyrian antiquities at the British Museum from 1894 to 1924. Among his many works of translation and studies of ancient Egyptian religion and ritual is his best-known project, The Egyptian Book of the Dead.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
