

Sunrise at Abadan: The British and Soviet Invasion of Iran, 1941

Sunrise at Abadan

*The British and Soviet
Invasion of Iran, 1941*

Richard A. Stewart

Sunrise at Abadan, portraying the dramatic events leading to the United States deep involvement in Iran, sets the historic stage for the current crisis in the Persian Gulf region. It rapidly traces the ebb and flow of Anglo-Russian rivalry over Persia from the reign of Peter the Great to World War II. By late summer of 1941, the Allies were reeling in defeat as Axis forces advanced triumphantly on all fronts. In a desperate move to avert Nazi victory, the British and Soviet governments suspended their political struggle for control of the Persian Gulf and jointly invaded neutral Iran. This controversial action toppled the powerful Shah, secured the vital Persian Gulf oil fields and opened the primary route for U.S. military aid to the beleaguered Soviet Union. Richard A. Stewart describes the rise to power of the late Shah Mohammed Reza Pahlavi and the events leading to the U.S. and Soviet confrontation over Iran in 1946. Carefully documented, his book raises important legal and moral questions about Allied actions while depicting the fate of a small but proud nation caught in a highstakes game of geopolitical intrigue, doublecross and shifting alliances. Sunrise at Abadan will stimulate the informed general reader while its original research will aid scholars of political science, Middle East studies, Soviet history and policy, and military studies.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
