Excerpt from 1812; The War, and Its Moral: A Canadian Chronicle

My Dear Sir,
- I venture to appeal to your respected name as the best introduction for the little work which I do myself the honour to dedicate to you. To you, indeed, it owes its existence. You conferred upon me the appointment I have the honour to hold under the Crown in Canada, and that appointment has given life to an idea, long cherished in embryo. The management of the Ordnance Lands in this Province has thrown me upon the scenes of the most notable events of the late war. It has brought me in contact with many of the surviving actors. It has revived early recollections of my own. The achievements of 1812 were the household words of my childish days. For three years, I grew up among the men, and almost among the incidents of the time. In the Spring of 1815, from the Grand Battery at Quebec, I had watched the slow cavalcade which bore Sir George Prevost across the ice of the St. Lawrence, on his return to England. Fifteen years afterwards brought me back to a country which, for thirty-three years, has been my home. During this long interval, the subject of the war has never ceased to be one of great interest. 2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
