

Bound For the Promised Land: African American Religion and the Great Migration (The C. Eric Lincoln Series on the Black Experience)

Bound for the Promised Land is the first extensive examination of the impact on the American religious landscape of the Great Migration—the movement from South to North and from country to city by hundreds of thousands of African Americans following World War I. In focusing on this phenomenon's religious and cultural implications, Milton C. Sernett breaks with traditional patterns of historiography that analyze the migration in terms of socioeconomic considerations. Drawing on a range of sources—interviews, government documents, church periodicals, books, pamphlets, and articles—Sernett shows how the mass migration created an institutional crisis for black religious leaders. He describes the creative tensions that resulted when the southern migrants who saw their exodus as the Second Emancipation brought their religious beliefs and practices into northern cities such as Chicago, and traces the resulting emergence of the belief that black churches ought to be more than places for praying and preaching. Explaining how this social gospel perspective came to dominate many of the classic studies of African American religion, Bound for the Promised Land sheds new light on various components of the development of black religion, including philanthropic endeavors to modernize the southern black rural church. In providing a balanced and holistic understanding of black religion in post-World War I America, Bound for the Promised Land serves to reveal the challenges presently confronting this vital component of America's religious mosaic.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every

year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
