

Capture or Kill: The Pursuit of the 9/11 Masterminds and the Killing of Osama bin Laden

Khalid Shaikh Mohammed and Ramzi Binalshibh, two of bin Ladens key lieutenants: the masterminds behind the attacks of September 11. Based on the only interview these masterminds of terror ever gave to the media as well as extensive follow-up research, Capture or Kill may be the closest we will get to the full inside story of the plot. While Mohammed and Binalshibh were among the worlds most wanted men and hiding in a safe house in Pakistan, they summoned star al-Jazeera TV reporter Yosri Fouda for a one-of-a-kind exclusive. Fouda knew he might well be walking into a trap, as Wall Street Journal reporter Daniel Pearl had done only months before. He took the risk, and, for forty-eight hours, Fouda listened as Mohammed, head of al-Qaedas military committee, and Binalshibh, the link between Mohammed Atta and the senior al-Qaeda leadership, proudly claimed responsibility for the attacks on New York and the Pentagon the first time al-Qaeda took direct responsibility and detailed for the first time exactly how the plot was conceived and executed. The authors, uniquely positioned because of their prior unprecedented access and research, deliver a thrilling account of what has happened since. What has changed in the intervening years to this insidious global network? How does Osama bin Ladens capture and death affect its continuing operation? This is a must-read for anyone who wants to know not only the full truth behind September 11, but also the implications of recent events for the future of global security.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every

year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
