

No military figure in history has been quite as polarizing as Napoleon Bonaparte. Was he a monster, driven by an endless, ruinous quest for military glory? Or a social and political visionary brought down by petty, reactionary kings of Europe? In the most definitive account to date, respected historian Charles Esdaile argues that the chief motivating factor for Napoleon was his insatiable desire for fame. More than a myth-busting portrait of Napoleon, however, this volume offers a panoramic view of the armed conflicts that spread so quickly out of revolutionary France to countries as remote as Sweden and Egypt. Napoleons Wars seeks to answer the question, What was it that made the countries of Europe fight one another for so long and with such devastating results? Esdaile portrays the European battles as the consequence of rulers who were willing to take the immense risks of either fighting or supporting Napoleon-risks that resulted in the extinction of entire countries. This is history writing equal to its subject-grand and ambitious.

Three Years in the Army of the Cumberland, Gentlemen and Officers: The Impact and Experience of War on a Territorial Regiment, 1914-18, Iran and the Challenge of Diversity: Islamic Fundamentalism, Aryanist Racism, and Democratic Struggles, Views of the past: Essays in old world prehistory and paleoanthropology (World Anthropology), Bravo, Stanley!: The Racing History of Stanley And the 1906 Stanley Land Speed Record, On the Move: Mobility in the Modern Western World, The M-1 Helmet of the World War II GI,
