

The War of 1812-1815 was a bloody confrontation that tore through the American frontier, the British colonies of Upper and Lower Canada, and parts of the Atlantic coast and the Gulf of Mexico. The conflict saw British, American, and First Nations, forces clash, and in the process, shape the future of North American history. This exciting new volume explains what led to Americas decision to take up arms against Great Britain and assesses the three terrible years of fighting that followed on land and sea, where battles such as Lake Erie and Lake Champlain launched American naval traditions.

History of the World War Vol 4 Only, The Poverty of Nations, During The War I Rode A Horse: A Cheeky Story Of The 10th Australian Light Horse 1914-1919, Tourism and Tibetan Culture in Transition: A Place called Shangrila (Routledge Contemporary China Series), understanding iraq: from genghis khan to american Occupation, State of the Cities Progress Report, Travel and Artisans in the Ottoman Empire: Employment and Mobility in the Early Modern Era (Library of Ottoman Studies),
