

Japanese Prostitutes in the North American West, 1887-1920 (Emil and Kathleen Sick Book Series in Western History and Biography)

This compelling study of a previously overlooked vice industry explores the larger structural forces that led to the growth of prostitution in Japan, the Pacific region, and the North American West at the turn of the twentieth century. Combining very personal accounts with never before examined Japanese sources, historian Kazuhiro Oharazeki traces these women's transnational journeys from their origins in Japan to their arrival in Pacific Coast cities. He analyzes their responses to the oppression they faced from pimps and customers, as well as the opposition they faced from American social reformers and Japanese American community leaders. Despite their difficult circumstances, Oharazeki finds, some women were able to parlay their experience into better jobs and lives in America. Though that wasn't always the case, their mere presence here nonetheless paved the way for other Japanese women to come to America and enter the workforce in more acceptable ways. By focusing on this invisible underground economy, *Japanese Prostitutes in the North American West* sheds new light on Japanese American immigration and labor histories and opens a fascinating window into the development of the American West.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
