

# Growing Up Gourmet: 125 Healthy Meals for Everybody and Every Baby

Garlic, cinnamon, cardamom, sage, basil—you'll be amazed by what your baby will eat! Here are 125 healthy, delicious, kitchen-tested, and pediatric dietitian-approved baby food recipes that will nurture your child's adventurous palate and guarantee smiles from everyone at the dinner table. Growing Up Gourmet is a total guide to your baby and toddler's diet. Jennifer Carlson built her business, Baby Gourmet, into one of the top-selling organic baby food brands in North America and will show you how to make nutritious, delicious, home-cooked meals that will complement your child's development schedule and make everyone else in the family happy too. Her mouth-watering recipes reduce picky eating and introduce your baby to the wide world of textures and tastes, from veggies such as kale and fennel, to grains such as amaranth and spelt, to herbs and spices such as turmeric and ginger that will help you avoid added sugar, salt, colorings, and preservatives. As a busy mother of two, Jennifer understands that it's easy to feel overwhelmed by feeding struggles and the sheer mass of parenting information, not to mention the challenges of finding time to make wholesome, flavorful meals from scratch. In this essential guide, she clearly lays out everything you need to know about feeding your baby: when to wean; how to get the right nutrients at every stage; how to deal with finicky eating habits; which foods will treat gas, colic, constipation, low iron, or poor sleep; and how to adapt your special dietary considerations for your child. As daunting as it may seem, there are shortcuts and techniques to make it all manageable, whether you're cooking for a single little one or a family of five and counting.

Hansen Family Farm  
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised

Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage. We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
