

Crusader Syria in the Thirteenth Century: The Rothelin Continuation of the History of William of Tyre with Part of the Eracles or Acre Text (Crusade Texts in Translation)

The Old French a?Rothelina Continuation of William of Tyreas Historia provides one of the best contemporary narratives of the history of the crusades and of the Latin Kingdom of Jerusalem in the mid-thirteenth century. Covering the period 1229a61, it has vivid accounts of the disastrous expeditions led by Count Theobald of Champagne (1239a40) and King Louis IX of France (1248a54) as well as of other events in the East. But the text contains far more than this, with a detailed description of Jerusalem itself, songs of protest written by crusaders, and a variety of marvels and adventures, including stories of Alexander the Great, and the poisonous snakes encountered by the Roman army under Cato. This text is here translated into English for the first time, together with a narrative for the same years taken from another Old French Continuation of William of Tyreas work, part of LaEstoire de Eracles. Both accounts are translated from the *Receuil des historiens des croisades: Historiens occidentaux vol. 2* (Paris, 1859). An introduction and full notes make these thirteenth-century events and ideas accessible to students of medieval history and to anyone interested in the lives and patterns of thought of people of that time.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
