

Delia Webster and the Underground Railroad

In this captivating tale, Randolph Paul Runyon follows the trail of the first woman imprisoned for assisting runaway slaves and explores the mystery surrounding her life and work. In September 1844, Delia Webster took a break from her teaching responsibilities at Lexington Female Academy and accompanied Calvin Fairbank, a Methodist preacher from Oberlin College, on a Saturday drive in the country. At the end of their trip, their passengers?Lewis Hayden and his family?remained in southern Ohio, ticketed for the Underground Railroad. Webster and Fairbank returned to a near riot and jail cells. Webster earned a sentence to the state penitentiary in Frankfort, where the warden, Newton Craig, married and a father, became enamored of her and was tempted into a compromising relationship he would come to regret. Hayden reached freedom in Boston, where he became a prominent businessman, the ringleader in the courthouse rescue of a fugitive slave, and the last link in the chain of events that led to the Harpers Ferry Raid. Webster, the focal point at which these lives intersect, remains an enigma. Was she, as one contemporary noted, A young lady of irreproachable character? Or, as another observed, a very bold and defiant kind of woman, without a spark of feminine modesty, and, withal, very shrewd and cunning? Runyon has doggedly pursued every historical lead to bring color and shape to the tale of these fascinating characters.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
