

Disarming Iraq

The war against Iraq divided opinion throughout the world and generated a maelstrom of spin and counterspin. The man at the eye of the storm, and arguably the only key player to emerge from it with his integrity intact, was Hans Blix, head of the UN weapons inspection team. This is Dr. Blix's account of what really happened during the months leading up to the declaration of war in March 2003. In riveting descriptions of his meetings with Tony Blair, Jacques Chirac, Colin Powell, Condoleezza Rice, and Kofi Annan, he conveys the frustrations, the tensions, the pressure and the drama as the clock ticked toward the fateful hour. In the process, he asks the vital questions about the war: Was it inevitable? Why couldn't the U.S. and UK get the backing of the other member states of the UN Security Council? Did Iraq have weapons of mass destruction? What does the situation in Iraq teach us about the propriety and efficacy of policies of preemptive attack and unilateral action? Free of the agendas of politicians and ideologues, Blix is the plainspoken, measured voice of reason in the cacophony of debate about Iraq. His assessment of what happened is invaluable in trying to understand both what brought us to the present state of affairs and what we can learn as we try to move toward peace and security in the world after Iraq. From the Hardcover edition.

Hansen Family Farm Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
