

Discourse Studies: A Multidisciplinary Introduction

A landmark in the oeuvre of one of the founding fathers of discourse analysis. Van Dijk has managed to edit a volume of lasting significance, and some of the chapters in this book belong to the most widely read in the field. In its totality, Discourse Studies offers us a 360 degree tour of the field... Nothing in this volume is dated, everything remains mandatory reading for every student and advanced practitioner.- Jan Blommaert, Tilburg University This very welcome updated second edition will allow Teun van Dijk's very popular Discourse Studies to consolidate its already strong and central position in the area. Featuring chapters written by so many of the leading scholars it will continue to be a stimulating and wide-ranging introduction to the discipline of discourse studies for new generations of students.- Malcolm Coulthard, University of Birmingham This book is the largest, most complete, most diverse and only multidisciplinary introduction to the field. A combined Second Edition of two seminal texts in the field (the 1997 titles Discourse as Social Interaction and Discourse as Structure and Process) this essential handbook: Is fully updated from start to finish to cover contemporary debates and research literature. Covers everything from grammar, narrative, argumentation, cognition and pragmatics to social, political and critical approaches. Adds two new chapters on ideology and identity. Puts the student at the centre, offering brand new features such as worked examples, sample analyses and recommended further reading. Written and edited by world-class scholars in their fields, it is the essential, one-stop companion for any student of discourse analysis and discourse studies.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
