

Flat Belly Diet! Diabetes: Lose Weight, Target Belly Fat, and Lower Blood Sugar with This Tested Plan from the Editors of Prevention

Lose Belly Inches and Balance Your Blood Sugar with Food The magic ingredient behind the New York Times best-selling Flat Belly Diet! monounsaturated fatty acids (or MUFAs) may not only target stubborn belly fat, but may also help treat the underlying cause of type 2 diabetes: insulin resistance. This 5-week program includes a sensible diabetes-friendly diet that teaches you how to incorporate pasta, chocolate, and other forbidden foods along with a MUFA at every meal into 160 sumptuous, satisfying dishes. Flat Belly Diet! Diabetes also includes a gentle walking-based exercise plan, stress reduction fitness moves, advice on how to work with ones doctor and diabetes management team, and journaling exercises to help track blood sugar. In just 5 weeks, 11 men and women who tried the plan lost as much as 12 pounds, improved their A1c levels, and lowered their cholesterol and blood pressure levels.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our

Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
