

France Divided: The French and the Civil War in Spain (The Canada Blanch / Sussex Academic Studies on Contemporary Spain)

This book sets out to analyze the schism in French public opinion during the Spanish Civil War that was to end in the tragic collapse of French national unity. It examines how the French people viewed their position in the international imbroglio swirling around the Spanish question, and how news was manipulated as never before. Mainstream historical fact is presented as the skeleton on which French press reportage is grafted and included in the historical material is the authors research in the archives of all five of the French departments bordering on Spain. The work is divided into two parts, the chronological hiatus coming in December 1936. This division is explained by the policy formulated by the democracies that went through no appreciable change; a policy sufficiently strong, perhaps, to deter the Axis powers from all-out intervention in Spain, but weak enough to allow them to pursue with impunity a victory by attrition. The periodic opening and closing of the French frontier played no decisive part in the outcome, since French aid to the Spanish Republic never came close to what the Axis provided the Nationalists. The book ends with the agony of the Republican exodus.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning

rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
