

Freedom to Believe: Essays and Letters

Freedom to Believe is a powerful collection of philosophical and religious essays by a modern poet of distinction. It introduces a highly original and controversial thinker to the Western reader. Olga Sedakova's central philosophical thought lies in the notion of existential freedom in its association with the liberating power of the arts, especially poetry. These convictions place her firmly in the Russian and European classical cultural traditions, which, in turn, have deep roots in Christianity. Devoutly Orthodox yet fiercely independent in her thinking, Sedakova's ecumenical humanism places her in opposition to both the new left and modern fundamentalism. Indeed, Sedakova's conservatism is more genuinely new than the so-called radicalism of the postmodernists, as she castigates old totalitarianism and new commercialism alike, in the name of a new cultural poetics and politics.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our

Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
