

Healthy Diet Recipes: Blood Type Recipes and Comfort Foods

Healthy Diet Recipes: Blood Type Recipes and Comfort Foods Healthy weight loss can be an incredibly difficult thing to achieve, no matter how hard you try. Millions of people are trying to correct their weight and choose healthy eating, but they're being sabotaged by the very healthy diet recipes that are supposed to assist them. Choosing the wrong foods for your unique metabolism, blood type and body makeup could spell disaster, weight gain, and a host of unpleasant health problems. Many doctors use a one size fits all method of healthy eating that can actually hurt more people than it helps. While it's true that most of us consume a diet that can't possibly be considered healthy, automatically limiting grains, cutting out fat, or removing sugars isn't the right choice for everyone. While these types of diets can be a big help for specific individuals, they're actually capable of making you gain more weight if they're wrong for you. This book provides real information on healthy nutrition and picking a good diet for you. It also does more than provide recipes for healthy meals; it offers healthy recipes that also taste great! That removes the risk that many people experience, in which they stop using a healthy diet because it simply doesn't make them happy. Instead of subsisting on flavorless foods that keep you from fully experiencing life, you'll get to enjoy all kinds of favorite comfort recipes. There are healthy options for every type, including beef with gravy, homemade potato chips, coffee cakes, curry chicken and many more. The key is simply to select the right food for your individual body. This simple but healthy change can help you experience food in completely new ways. If you're ready to stop wasting your time with diets that don't work, check out these healthy recipes. They're ready to make your table a lot more interesting.

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
