

## Historical Dictionary of International Intelligence (Historical Dictionaries of Intelligence and Counterintelligence)

Once dubbed espionage, the practice of intelligence has never been more important nor more sophisticated than it is today. Its coming-of-age began during World War II, which saw the birth of the Office of Strategic Services (OSS) in the United States and the XX Committee to supervise the activities of double agents in Great Britain, and during the Cold War, where its rapid technological advances forever changed intelligence-gathering methods. Today, with the growing concern for terrorism, intelligence is more vital than ever and is needed not only by major powers but virtually all countries. In this time of change, it is essential to consider the evolution of intelligence, and how well it is coping at present. That, among other things, is the contribution of the Historical Dictionary of International Intelligence. Author Nigel West's second contribution to the series includes a list of acronyms, a chronology, a bibliography, and hundreds of cross-referenced dictionary entries on the agencies and agents, the operations and equipment, the tradecraft and jargon, and many of the countries involved. No military reference collection is complete without it.

Hansen Family Farm  
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull

day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
