

## History of the United Netherlands, Volumes I-IV, Complete

Illustrated. Formatted for the Kindle. Linked Contents.Excerpt: PREFACE.The indulgence with which the History of the Rise of the Dutch Republic was received has encouraged me to prosecute my task with renewed industry.A single word seems necessary to explain the somewhat increased proportions which the present work has assumed over the original design. The intimate connection which was formed between the Kingdom of England and the Republic of Holland, immediately after the death of William the Silent, rendered the history and the fate of the two commonwealths for a season almost identical. The years of anxiety and suspense during which the great Spanish project for subjugating England and reconquering the Netherlands, by the same invasion, was slowly matured, were of deepest import for the future destiny of those two countries, and for the cause of national liberty. The deep-laid conspiracy of Spain and Rome against human rights deserves to be patiently examined, for it is one of the great lessons of history. The crisis was long and doubtful, and the health perhaps the existence of England and Holland, and, with them, of a great part of Christendom, was on the issue.History has few so fruitful examples of the dangers which come from superstition and despotism, and the blessings which flow from the maintenance of religious and political freedom, as those afforded by the struggle between England and Holland on the one side, and Spain and Rome on the other, during the epoch which I have attempted to describe. It is for this reason that I have thought it necessary to reveal, as minutely as possible, the secret details of this conspiracy of king and priest against the people, and to show how it was baffled at last by the strong self-helping energy of two free nations combined. ...

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
