

How to Talk To Anyone In Six Easy Steps: A Quick Guide to Random Conversation

There they are! You see them. You want to talk to them SOOO bad. But, your feet dont move towards them. The more you dwell on the idea of talking to them, you start to chicken out. All of the sudden, you are completely crippled by your own shyness, or lack of confidence. And then....there they go. You missed your opportunity. Again. Well, its time to stop. STOP telling yourself why you cant go up to someone. STOP defeating yourself before even trying. There is no magic formula that will make things change for you. Only you can make this happen. Im positive you have heard that before. So, why havent you acted on it yet? You will succeed at this. This e-book not only is a quick, direct, and very rational read but it also works! Six steps. Thats it.

There is nothing complicated with the method described in this book. Anyone can do it. You are reading this book description right now. Do you know what that actually means? It means that you are in the process of trying to better yourself. That is why you have looked this topic up. THAT in itself, says a lot about you. You ARE ready to move forward, you are putting in the initial leg work. So, keep moving, and before you know it, you will be accomplishing exactly what you have set out to do. The reason I have kept this book concise is because it really is that simple. You dont have to be the best looking person, or someone with loads of money, or whatever other ill informed idea you perceive it to be. You will be able to constantly refer back to the book as much as you need to, in a very quick manner. Please understand the following: this is not a how to in tricking someone. These are real ways to start a conversation with someone, whether it is someone you are attracted to, or just someone you would like to become friends with. Stop thinking you cant, and start knowing you can.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
