

A Matter of Principle: Humanitarian Arguments for War in Iraq

Current debate over the motives, ideological justifications, and outcomes of the war with Iraq have been strident and polarizing. *A Matter of Principle* is the first volume gathering critical voices from around the world to offer an alternative perspective on the prevailing pro-war and anti-war positions. The contributors—political figures, public intellectuals, scholars, church leaders, and activists—represent the most powerful views of liberal internationalism. Offering alternative positions that challenge the status quo of both the left and the right, these essays claim that, in spite of the inconsistent justifications provided by the United States and its allies and the conflict-ridden process of social reconstruction, the war in Iraq has been morally justifiable on the grounds that Saddam Hussein was a brutal tyrant, a flagrant violator of human rights, a force of global instability and terror, and a threat to world peace. The authors discuss the limitations of the current system of global governance, which tolerates gross violations of human rights and which has failed to prevent genocide in places such as Bosnia and Rwanda. They also underscore the need for reform in international institutions and international law. At the same time, these essays do not necessarily attempt to apologize for the mistakes, errors, and deceptions in the way the Bush administration has handled the war. Disputing the idea that the only true liberal position on the war is to be against it, this volume charts an invaluable third course, a path determined by a strong liberal commitment to human rights, solidarity with the oppressed, and a firm stand against fascism, totalitarianism, and tyranny.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised

Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
