

Routledge Encyclopedia of Philosophy (10 Volume Set)

The Routledge Encyclopedia of Philosophy is the most ambitious international philosophy project in many years. Edited by Edward Craig and assisted by thirty specialist subject editors, the REP consists of ten volumes of the world's most eminent philosophers writing for the needs of students and teachers of philosophy internationally. The REP is a project on an unparalleled scale: Over 2000 entries ranging from 500 to 15,000 words in length - thematic, biographical and national - 10 volumes consisting of over 5 million words of text plus considerable bibliographic material. A Chief Editor and thirty specialist Subject Editors from across the world. Over 1200 authors from all over the world. The importance of the REP is not to be found just in the sheer size of the project but also in its breadth of subject matter. It covers: The core of most Anglo-American philosophy - the metaphysical, epistemological and logical questions. The usual menu of ethics, political philosophy and the history of philosophy. The philosophy of other cultures - from Chinese, Arabic and Jewish philosophy to the philosophy of Africa and Latin America. The most impressive range of authors have been gathered together on this unique project: William Alston, Roderick Chisolm, Fred Dretske, Joel Feinberg, Sandra Harding, Larry Laudan, Martha Nussbaum, Richard Popkin, Richard Rorty, Alan Ryan, Gyatri Chakravorty Spivak, Stephen Stich, Patrick Suppes and Bernard Williams, to name just a few. Also available online: www.rep.routledge.com

Hansen Family Farm Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
