

The Character and Influence of the Indian Trade in Wisconsin (Dodo Press)

Frederick Jackson Turner (1861-1932) was one of the two most influential American historians of the early 20th century. He is best known for *The Significance of the Frontier in American History*. As a professor of history at Wisconsin, Turner trained scores of disciples who in turn dominated American history programs throughout the country. His emphasis on the importance of the frontier in shaping American character influenced the interpretation found in thousands of scholarly histories. His model of sectionalism as a composite of social forces, such as ethnicity and land ownership, gave historians the tools to use social history as the foundation of all social, economic and political developments in American history. His essays are collected in *The Significance of Sections in American History* (1932), which won the Pulitzer Prize in History in 1933. Turner's sectionalism thesis had almost as much influence among historians as his frontier thesis. He argued that different ethno-cultural groups had distinct settlement patterns, and this revealed itself in politics, economics and society. His other works include *The Character and Influence of the Indian Trade in Wisconsin* (1891).

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
