

RealTime Coaching with Profile

RealTime Coaching is a how-to manual for every manager, executive, or leader who is responsible for getting the work of the organization done with and through the cooperation of other people. In RealTime Coaching you'll find a solid, practical theory of why people do what they do, you'll see coaching in action in four vivid coaching sessions, you'll learn a simple straight forward coaching model, and you'll have the opportunity to discover the values that motivate you and how to adapt your behavioral style for effective coaching. This version of RealTime Coaching includes two powerful, computer-generated, self-assessment profiles. The first is the Personal Interests, Attitudes, and Values profile that measures the intensity of your motivation in six different areas. The other profile, Managing for Success profiles the behavioral style you use to get what you want out of life. The profile takes just minutes to complete on your personal computer and you'll receive a 35-page profile of your strengths and blind spots as a manager, your motivational hot buttons, your preferred style of communication (and its limitations!) and the interests, attitudes and values that motivate you. Requires IBM compatible computer, 3.5 disk drive and Windows 95 or later

Hansen Family Farm Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
