

Invisible War: The United States and the Iraq Sanctions

The economic sanctions imposed on Iraq from 1990 to 2003 were the most comprehensive and devastating of any established in the name of international governance. The sanctions, coupled with the bombing campaign of 1991, brought about the near collapse of Iraq's infrastructure and profoundly compromised basic conditions necessary to sustain life. In a sharp indictment of U.S. policy, Joy Gordon examines the key role the nation played in shaping the sanctions, whose harsh strictures resulted in part from U.S. definitions of dual use and weapons of mass destruction, and claims that everything from water pipes to laundry detergent to child vaccines could produce weapons. Drawing on internal UN documents, confidential minutes of closed meetings, and interviews with foreign diplomats and U.S. officials, Gordon details how the United States not only prevented critical humanitarian goods from entering Iraq but also undermined attempts at reform; unilaterally overrode the UN weapons inspectors; and manipulated votes in the Security Council. In every political, legal, and bureaucratic domain, the deliberate policies of the United States ensured the continuation of Iraq's catastrophic condition. Provocative and sure to stir debate, this book lays bare the damage that can be done by unchecked power in our institutions of international governance.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
