

Iran's Deadly Ambition: The Islamic Republic's Quest for Global Power

Are we on the cusp of detente with Iran? Conventional wisdom certainly seems to believe so. In the aftermath of the interim nuclear deal struck in November 2013 between the Islamic Republic and the P5+1 powers (the United States, France, England, Russia, China and Germany), hopes are now running high for a historic reconciliation between Iran's clerical regime and the West. Yet there is ample reason for skepticism that the United States and Europe can truly curb Iran's nuclear ambitions by diplomatic means. Moreover, the current focus on Iran's nuclear program not be part of the Western governments is deeply dangerous, because it fails to recognize let alone address Iran's other international activities, or its foreign policy ambitions. Those objectives reveals Ilan Berman, are global in scope, and they are growing. Iran's Deadly Ambition explains how America's retraction from the Middle East has created significant breathing room for an Iranian regime that not long ago was on the political ropes. Economically, the Islamic Republic is out of the box that was erected over the past decade-and-a-half by Western sanctions, thanks to the interim nuclear deal. As a result, Iran's leaders are again thinking big about their country and its place in the world. America faces stark choices: to confront Iran's nuclear ambitions and global activities, or to accept and accommodate the region's newest hegemon, with all that that portends for American security and the safety of its allies.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
