

# Irans Nuclear Ambitions

Iran is aggressively seeking nuclear technology that could be used for making weapons and its quest has set off alarms throughout the world. This widespread concern stems in part from Iran's uncertain intentions and recent history. Will it remain a revolutionary power determined to subvert its Sunni Arab neighbors, destroy Israel, and spread theocratic government to other lands? Or would an Iran with nuclear weapons merely defend its territory from foreign aggression and live in peace with its neighbors? Are the country's leaders and society willing to negotiate limits on nuclear capability and normalize relations with the West, or will they resist accommodation?

*Iran's Nuclear Ambitions* provides a rare, balanced look into the motivations, perceptions, and domestic politics swirling around Iran. Shahram Chubin, an Iranian-born security expert, details the recent history of Iran's nuclear program and diplomacy. He argues that the central problem is not nuclear technology, but rather Iran's behavior as a revolutionary state, with ambitions that collide with the interests of its neighbors and the West. Topics include: The view from Tehran, Iran's nuclear energy rationale, domestic politics, and decisionmaking. Sources of concern, including the nature of Iran's regime, its nuclear infrastructure, missile development, and terrorism. Iran's negotiating strategy. The international response. Iran and regional security, including the U.S. as a threat and rival, Iran's regional ambitions, and Israel. Policy options.

## Hansen Family Farm Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every

year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
