

Key Concepts in Historical Geography (Key Concepts in Human Geography)

Edited by Dr Rob Kitchen, Director of the National Institute of Regional and Spatial Analysis (NIRSA) at the National University of Ireland, the Key Concepts in Human Geography series is an innovative set of companion texts for undergraduate students of the Human Geography sub-disciplines. Organized around 20 short essays, they provide a cutting edge introduction to the central concepts that define contemporary research in their field. All books in the series are authored by internationally recognized academics and include an introductory chapter and extensive pedagogic features in the form of a glossary, figures, diagrams and further reading. Morrissey et al have produced a detailed yet expansive guide to an area in which students have been poorly served in the past. Key Concepts in Historical Geography brings alive the human geographies of the past, and demonstrates their relevancy for understanding key aspects of the contemporary world. This new and innovative includes entries on: Colonial and Postcolonial geographies Globalization Space Power Intended Audience: Key Concepts in Historical Geography is an excellent text for upper level undergraduate and postgraduate students of Historical Geography.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
