

Little Brazil

Walking west on 46th Street in Manhattan, just three blocks from Rockefeller Center, one passes Brazilian restaurants, the office of New York's Brazilian newspaper, a Brazilian travel agency, a business that sends remittances and wires flowers to Brazil, and a store that sells Brazilian food products, magazines, newspapers, videos, and tapes. These businesses are the tip of an ethnic iceberg, an unseen minority estimated to number some 80,000 to 100,000 Brazilians in the New York metropolitan area alone. Despite their numbers, the lives of these people remain largely hidden to scholars and the public alike. Now Maxine L. Margolis remedies this neglect with a fascinating and accessible account of the lives of New York's Brazilians. Showing that these immigrants belie American stereotypes, Margolis reveals that they are largely from the middle strata of Brazilian society: many, in fact, have university educations. Not driven by dire poverty or political repression, they are fleeing from chaotic economic conditions that prevent them from maintaining a middle-class standard of living in Brazil. But despite their class origin and education, with little English and no work papers, many are forced to take menial jobs after their arrival in the United States. Little Brazil is not an insentient statistical portrait of this population writ large, but a nuanced account that captures what it is like to be a new immigrant in this most cosmopolitan of world cities.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
