

Ancient Persia in Western History: Hellenism and the Representation of the Achaemenid Empire (International Library of Iranian Studies)

The Achaemenid Empire, founded by Cyrus the Great in the 6th century, was at its height the largest empire the world had yet seen, stretching across Asia, the Middle East and North Africa. Because this first Persian Empire fought a series of wars against the Ancient Greek city-states, it has often been cast in opposition to the Hellenistic cultures of the period. *Ancient Persia in Western History* is a measured rejoinder to the dominant narrative that considers the Graeco-Persian Wars to be merely the first round of an oft-repeated battle between the despotic East and the broadly enlightened West. Sasan Samiei analyses the historiography which has skewed our understanding of this crucial era - contrasting the work of Edward Gibbon and Goethe, which venerated Classicism and Hellenistic history, with later writers such as John Linton Myres. Finally, Samiei explores the cross-cultural encounters which constituted the Achaemenid period itself, and repositions it as essential to the history of Europe, Asia and the Middle East.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We

are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
