

Natexus

Seven breaths left in her chest, yet I looked back at him. He wasn't meant to be there on the darkest night of my life, but the mysterious Alex Law continued to make a habit of showing up when I least expected him. With one look in his eyes, everything I'd ever been before him drifted away, and everything I was about to become revolved around him. Grief threatened to ruin me no matter how hard I fought, and Alex had demons of his own to deal with, yet we found a comfort in each other's pain. We found ourselves alone, two people becoming one. Just us. Natalie and Alex. Natexus. As long as we had each other, we thought we could make it through anything. We didn't know there were things out there waiting to destroy us: people we couldn't escape, fates we couldn't outrun and regrets we couldn't avoid. Not all love stories go the same way, and ours was about to take a turn neither one of us could have foreseen. All I could do was stand by and watch as my world fell apart for a second time. I knew there had been life before Alex Law. I just had to figure out if there was life after him. That beautiful, tragic first love of mine. - Natalie Vincent.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull

day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
