

## Normandy Landings: A 19-year-olds diary with unique photos

....we had to fight two wars, one against the sea and the other against the Germans. Still only in his teens, and newly commissioned, Sub Lieutenant Carter was one of the youngest naval officers to engage in prolonged action on the Normandy beaches during operation overlord in June 1944. Their first beaching took place with his landing craft filled with American Stuart tanks. It was a grim scene, faithfully recorded by the author in this excellent account and clearly attested by the over twenty-five of his own photographs. Because of the leaky state of his LCT Mark V, Sub-Lt. Carter was kept in Normandy for three weeks of hard toil delivering armaments and supplies all along the American beachhead, experiencing the horrific storm and the break-up of his craft. Uniquely, then, he presents a record of many landings, rather than just one, and gives us a chilling overview of the chaos that turned -miraculously - into triumph. After seventy years, it is well to remember how much we owe to the men who landed on D-Day, and to those, like the author, who helped ensure their victory.

Hansen Family Farm  
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms,

open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
