

Randolph Field (Images of America)

Once touted as the West Point of the air in the pre-Air Force Academy years, Randolph Field/Air Force Base is famous for its Spanish Colonial Revival architecture, its iconic Administration Building (nicknamed the Taj Mahal), and its rectangular layout. Allowed by the Army hierarchy to design its own installation from the ground up, the Army Air Corps hit a home run in design uniqueness and functionality. When the Corps of Engineers built the base, working from 1928 to 1931, it was its biggest project since the Panama Canal. Randolph has been a popular assignment location for Air Force members for over 80 years and is currently home to the 12th Flying Training Wing, the Air Education and Training Command Headquarters, and the Air Force Personnel Center. Thousands have passed through Randolph's gates as students and permanent personnel, and many have chosen to live in the San Antonio area after discharge or retirement. Carefully landscaped with trees and shrubbery from the very beginning, Randolph is the showplace of the Air Force.

Hansen Family Farm Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms,

open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
