

PINE GAP is the most important US installation in Australia is part of a black program, the geostationary SIGINT satellite program its purpose and functions are the most secret PINE GAP is the most visible sign of Australia's integration into America's security posture has long been represented to the Australian public by an extraordinary series of half-truths, evasions and disinformation PINE GAP What does this installation really do? Does it support arms control or threaten global stability? Does its role limit Australian sovereignty? Should the US be given notice that it must be closed? This book sets out as dispassionately as possible all the information a citizen requires to form an opinion about this top-secret installation a symbol of one of the major issues in Australian foreign policy today.
