

Postmodern Gandhi and Other Essays: Gandhi in the World and at Home

Gandhi, with his loincloth and walking stick, seems an unlikely advocate of postmodernism. But in *Postmodern Gandhi*, Lloyd and Susanne Rudolph portray him as just that in eight thought-provoking essays that aim to correct the common association of Gandhi with traditionalism. Combining core sections of their influential book *Gandhi: The Traditional Roots of Charisma* with substantial new material, the Rudolphs reveal here that Gandhi was able to revitalize tradition while simultaneously breaking with some of its entrenched values and practices. Exploring his influence both in India and abroad, they tell the story of how in London the young activist was shaped by the antimodern other West of Ruskin, Tolstoy, and Thoreau and how, a generation later, a mature Gandhi's thought and action challenged modernity's hegemony. Moreover, the Rudolphs argue that Gandhi's critique of modern civilization in his 1909 book *Hind Swaraj* was an opening salvo of the postmodern era and that his theory and practice of nonviolent collective action (*satyagraha*) articulate and exemplify a postmodern understanding of situational truth. This radical interpretation of Gandhi's life will appeal to anyone who wants to understand Gandhi's relevance in this century, as well as students and scholars of politics, history, charismatic leadership, and postcolonialism.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
