

AMERICAS FAMOUS HOPI INDIANS - Their Spiritual Way of Life & Incredible Prophecies!

The oral history of Americas famous Hopi Indians tell them that they were the first human beings to inhabit the North and South American continents and that they arrived on large rafts, island-hopping across the Pacific Ocean not by the land bridge that once connected Alaska and Siberia. The story of their arrival, splitting up into groups and going in different directions to populate the two continents is so detailed that it is hard to believe that it is just a myth concocted for some ulterior purpose. I have used key terms in the Hopi language that are pregnant with cultural and historical meanings as windows to reveal the amazing story of the Hopis, including how they ended up living on top of high mesas that rise up like sentinels in northern Arizona. Perhaps most astounding of all in the story of the Hopis is their tradition of prophecies, and their incredible accuracy including the coming of white men with guns, the coming of wagons, the coming of the railroad, cattle, electric power lines and future wars. This is a fascinating read for anyone who is interested not only in Native Americans but in an incredible saga of an ancient people who have survived into modern times and continue to practice their ancient ceremonies.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
