

Ready!: Training the Search and Rescue Dog (Kennel Club Pro)

Professional search and rescue workers consider Susan Bulandas Ready! Training the Search and Rescue Dog the bible of Search and Rescue (SAR), the most sought-after book of its kind detailing canine search and rescue. This second edition, expanded and revised with new color photography, provides readers with the necessary training methods for dogs in various SAR disciplines, including wilderness, evidence, cadaver, water, avalanche, and disaster searches. The author, an experienced SAR professional, details the goals, target skills, and potential problems at each training level of every SAR discipline. Ready! provides descriptions of every type of search, including specific training methods to accomplish each SAR discipline. Professional and volunteer SAR workers will profit from the Bulandas expertise on training the dog to alert, managing the search mission, choosing and socializing a SAR dog, and how to train dogs for specific commands (such as bar, turn around, go to an object, check, slow, crawl through and others). Readers curious about the fascinating work of the SAR canine will enjoy the general chapters about the history of SAR, an explanation of how dogs use scent to locate people or objects, and the functions of the SAR dog. This highly specialized training manual offers precise direction for SAR workers for every possible kind of mission, identifying the goals, target skills, methods and problem solving for each type of search. Color photographs and line drawings help to elucidate difficult concepts explained in the text. A resources section and index conclude this 254-page volume.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to

grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
