

Resurrecting Empire: Western Footprints and Americas Perilous Path in the Middle East

Begun as the United States moved its armed forces into Iraq, Rashid Khalidi's powerful and thoughtful new book examines the record of Western involvement in the region and analyzes the likely outcome of our most recent Middle East incursions. Drawing on his encyclopedic knowledge of the political and cultural history of the entire region as well as interviews and documents, Khalidi paints a chilling scenario of our present situation and yet offers a tangible alternative that can help us find the path to peace rather than Empire. We all know that those who refuse to learn from history are doomed to repeat it. Sadly, as Khalidi reveals with clarity and surety, America's leaders seem blindly committed to an ahistorical path of conflict, occupation, and colonial rule. Our current policies ignore rather than incorporate the lessons of experience. American troops in Iraq have seen first hand the consequences of U.S. led democratization in the region. The Israeli/Palestinian conflict seems intractable, and U.S. efforts in recent years have only inflamed the situation. The footprints America follows have led us into the same quagmire that swallowed our European forerunners. Peace and prosperity for the region are nowhere in sight. This cogent and highly accessible book provides the historical and cultural perspective so vital to understanding our present situation and to finding and pursuing a more effective and just foreign policy.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local,

fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
