

Revolutionary Conversations: The Tools You Need for the Success You Want

Gold Medal Winner, 2014 Global Ebook Awards (Communications category). Who would imagine that one word could change your life? Introducing the S.H.A.R.E. Tools, which together spell the word that leads to positive connections and the success of Revolutionary Conversations. Developed over the course of 25 years by business re-engineering specialist Mark Fowler and refined with human resources professional Noal McDonald and noted public relations authority and NGO leader Barbara Gaughen-Muller, the S.H.A.R.E. Tools are five simple, flexible pathways that lead to productive, constructive conversations by creating an exceptional connection between two or more people. You can use the Tools to solve problems, improve hiring and training, promote employee engagement, develop and implement marketing initiatives, unite a group around a common purpose, and anything else that requires interaction for superior success. The book is packed with examples showing how the Tools fit easily into every kind of conversation, from the boardroom to the shop floor; from high-stakes negotiations to staff meetings; from water-cooler conversations to job interviews. And if your definition of success (or your job description!) is to build peace and a better world, well, the Tools can help there, too. You'll find that the S.H.A.R.E. Tools blend naturally into your own speaking style, there are no scripts or complicated rules to learn, you don't have to use them perfectly to get positive results, and you'll quickly get better at using them. So, start today to develop a Language of Success that will advance your goals, encourage collaboration, increase the momentum of your business, and energize your career and your life. With the S.H.A.R.E. Tools, success is just a conversation away.

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
