

Love Or Money

There's a price to pay for living the fast life Gabriella Hernandez known to her friends as Riel almost wishes she could stay in prison. At least there she has steady meals, and a girlfriend who loves her. Even a cold cell is better than what's waiting for her on the outside. The only people she looks forward to seeing in her normal life are her sister, Lizette, and her green-eyed best friend and former drug-running partner, Evan. Drugs, danger, and a hot spark of romance. Upon release, Riel has no choice but to go back to work for her brother-in-law, Isaias. This time, instead of running drugs, he forces her to work in his strip club where she gets a lousy ten percent of her tips. The daily dose of threats and coercion chains her to this place. And, if she makes a run for it, she'd be abandoning everyone she loves. With Isaias spies and henchmen everywhere, there's nowhere to run. A crooked cop, a setup, and hope for a real life. Evan is able to smuggle her out of the city, but it isn't long before Riel's fears come true. After a bloody shootout with Isaias' men lands Evan at death's door, it's up to her to get them out of this deadly game, and into the quiet life they've always wanted. With the help of a crooked cop and the FBI, she concocts a plan. If it succeeds, Isaias goes to prison for life, and she and Evan get immunity from prosecution. If she fails, she may die along with Evan, her sister, and countless others. With eyes all over and the FBI involved, will Riel pull off the sting operation? Or will they all go down in a blaze of drugs and gunfire?

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
