

The Fundamentals of Quitting Golf

The Fundamentals of Quitting Golf offers permanent relief, or perhaps just a chuckle, to golf sufferers who swear they are going to quit the game, often using very colorful language. As explained by author David Divot, your mind is cluttered with excuses for your poor play: lack of lessons, bad courses, old clubs, new clubs and on and on. Quitting cold turkey does not work because, subconsciously, you want to believe this nonsense. But with Divot's ten-year course of treatment, you eventually admit that there is no excuse for your game. Explore techniques to control your anger and depression. Then ponder why you would put that monumental achievement at risk by trying to golf. Discover that having confidence in your game is the surest way to shatter your confidence. Consider why golf magazines constantly offer new tips for curing the same problems that were supposedly cured by the tips offered in previous issues. Find out how to heighten your disappointment by pretending you have some control over where your ball will go. You may not cure your golf affliction with The Fundamentals of Quitting Golf, but at least you'll have a good laugh trying.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull

day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
