

Tatterdemalion (Foundations of Magic)

Deep runs the world of magic and desire. Lindsay Carrington is a prisoner of his life first in the mundane world, then in the military testing facility where his parents sent him to have his magic dissected, studied and fixed. When he finally escapes, freedom comes at great cost. The man who rescues him from near death in a dark alley is far from a savior. He's a feral mage nearly as broken as Lindsay himself. Dane knows better than to argue with the wind that summoned him to Lindsay's rescue, but playing nursemaid isn't the role he envisioned for himself in the battle to end the human campaign to control his people. In spite of his resistance, he is bound to the delicate, skittish mage who unwittingly harbors one of the greatest magical powers ever known. Lindsay desperately hides his growing desire, sure that Dane could never reciprocate. Yet Dane lays his life on the line to protect him, restoring the one thing Lindsay thought was gone forever: hope. But true freedom to live and to love will elude Lindsay until he can regain his magic and win Dane's complete devotion. And survive long enough to do both. Warning: Contains graphic language, violence and explicit erotic content.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning

rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
