

## Soul Mates: When Romance and Reincarnation Collide

Graduating from high school is tough. Imagine graduating from high school when you believe you're reincarnated from your great-great uncle and the love of your life has been dead... ..for over 100 years. Wills Harrington, recently of Eton College, is trying to find himself-both his past and present self-during his gap year in Rouen, France. Why Rouen? That's where his great-great uncle died during World War I. The great-great uncle Wills believes, well, that he's quite possibly him or something like that. Wills dreams about a beautiful nurse-he's trying to find her too. Charlie Longley, a senior in high school from St. Louis, Missouri convinces her friends to join her at a study abroad program in Rouen. Why Rouen? That's where Charlie can explore her interest in World War I while learning French. Simple enough. Charlie starts dreaming about a hot, dead guy. She assumes he's dead because he's a soldier from World War I; and, if he's not dead, he'd be super old. Charlie's dreams of World War I feel like memories... ..and they start messing with her head. Charlie and Wills meet and it's electric...really electric; Charlie gives off a shock that literally knocks Wills off his feet. Charlie and Wills try to reconnect in the 21st century while dealing with frenemies, a stalker, and their electric connection as they hunt for a WWI treasure. And they need to get the whole mess figured out before Charlie heads back to the States.

Hansen Family Farm  
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
