

Sport, History, and Heritage: Studies in Public Representation (Heritage Matters)

Sport is an integral part of British culture and an important aspect of modern life. Although its importance has been recognised by academic historians, sport has yet to be fully appreciated in the growing and related fields of heritage and museum studies. Sport and heritage have operated as seemingly separate spheres, yet together they can convey powerful messages; convergence between them is seen in the rise and popularity of sports museums, the collecting of sporting art and memorabilia, and popular concern over the demise of historic sports buildings and sport-related sites. These places, exhibitions and activities help to shape our understanding of sport, history and the past. The essays in this volume explore sports history as manifested in academic enquiry, museum exhibitions and heritage sites. They deal among other things with the public representation of sport and its significance; its impact on public spheres; the direction of sports heritage studies and their aims; the role of museums in public history; and place, memory and meaning in the historic sports landscape. Contributors: Jeffrey Hill, Jed Smith, Anthony Bateman, Ray Physick, Neil Skinner, Matthew Taylor, Tim OSullivan, Kevin Moore, Max Dunbar, Santiago De Pablo, John K. Walton, Wray Vamplew, Honor Godfrey, Jason Wood, Andrea Titterington, Stephen Done, Mike McGuinness, David Storey, Daphne Bolz, Jean Williams, Richard Holt. Jeffrey Hill is Emeritus Professor of Historical and Cultural Studies, De Montfort University, Leicester; Kevin Moore is Director, National Football Museum, Manchester; Jason Wood is Director, Heritage Consultancy Services.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to

grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
