

The Age of Reconnaissance: Discovery, Exporation and Settlement, 1450-1650 (History of Civilization)

An enthralling account of the greatest adventure in European history - the discovery of the rest of the world. The Age of Reconnaissance, as J. H. Parry so aptly named it, was the period in which Europe discovered the rest of the world. It began with Henry the Navigator and the Portuguese voyages in the mid-fifteenth century and ended 250 years later when the reconnaissance was all but complete. This book is less concerned with the voyages of discovery themselves than with an analysis of the factors that made the voyages possible in the first place. Dr Parry examines the inducements - political, economic, religious - to overseas enterprises at the time, and analyses the nature and problems of the various European settlements in the new lands. At the beginning of the period central to this book, the middle of the fifteenth century, the normal educated man believed that the Ancients were more civilized, more elegant, wiser and, except in religious matters, better informed than his contemporaries. But gradually as the reconnaissance proceeded, the European picture became fuller and more detailed and with it the idea of continually expanding knowledge became more familiar and the links between science and practical life became closer. The unprecedented power which it produced would eventually lead Europe from reconnaissance to worldwide conquest.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
