As some, not all celebrate Victory in Europe 70-years after the surrender of the German Armed Forces, the lies and spin woven on the Third Reich become more intense than ever. All conflicts sleep in history. The Third Reich refuses to sleep. Is there an awareness that the influence of Adolf Hitler and his legacy are never going to be defeated? Dr Joseph Goebbels, before taking the lives of himself and his family made a prophecy. One day the lies will break down under their own weight. We will stand as pure and undefiled as we have ever been. The internet offers access to background information once closely guarded by mainstream editors and publishers desks? Are people now waking to the fact that Winston Churchills conspiracy to wage trade war on Germany, resulted in economic disaster for Britain, end of British Empire, the Rise of Bolshevik Occupied Russia, and the destruction of Europe? Due to desperation perhaps, mainstream spin on the Third Reich, and Churchills disastrous war, is more intense than ever. This book, The All Lies Invasion is published to coincide with triumphalism now goose-stepping over the graves of tens of millions of Europeans. For these unfortunates, handed over at wars end to Bolshevik Russia, the lights of freedom went out on May 8 1945. To save Poland, Winston Churchill wrecked Britain and its Empire. Before Allied troops bodies were cold in their graves Churchill handed Poland and ten other European nations to Josef Stalin. German ships taken as war prizes, were used to facilitate the non-European invasion of Britain. The suffering of these unfortunate victims has nothing to do with the Third Reich or Adolf Hitler. The root cause was the Allied division of Europe and the lies spun by mainstream media and its revisionist writers.

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
